AQUAPONIC

Aquaponic is one of our resources of fund. House of love harvest peppermint when the peppermint is ready. The process of havesting will be around 2-3 days.

Children will help out to harvest and wash the tube that peppertmint was grown.

As the image show children is rinsing the tube. Children will helping out the harvest process after school. They will not complain when there is a sunny day or rainy day. Children will first cut the peppermint on the tube and weight around 3kg and put into a box.

▲ John is squatting down and using the tools harvest the perrperminet

▼ Mike is also harvesting the peppermint

Children is back to school on March, finally they are no longer stay at home, since going back to school have numerous of benefit, finally they can now interact with classmate. Children is very happy for the first day of school, they eat their lunch on time and change their cloth from house wear to school uniform very quick. From the image itself we can notice they have a big smile on their face to show how excited they are back to school.

BACK TO SCHOOL

2

VACCINE INJECTION

The date that children get the second dose of vaccine injection was on 29 April 2022.

Volunteer medical group was there on time and gave children the second dose of vaccine.

3

We have allowed children to take the first dose of vaccine during last year. So here was the second dose for children. The process of taking the second dose was very smooth.

Firstly children are commanded to line up as two row as children age 6 to 12. Children was wait patiently in two rolls.

When children was taking the sencond dose they present very calm and brave.

◀ Image shown four children has taken the second dose, they were showing off their arm and proved them was brave.

◀ Image shown children was working on the packaging of popcorn. Since the order has coming rapidly, children was keen to make the popcorn until evening time.

▼ Image shown elderly brother was teaching younger brother to do the finish packaging. Younger brother was doing it quite well.

Yayasan Feruni has visited House of Love for popcorn making. Yayasan Feruni have taught children about running a small business that needed cost and revenue. Yayasan Feruni have gave a speech and children was enjoying the speech.

Children then learn from making popcorn from A-Z. From produce popcorn, let cold and packaging, children were involved.

Children was took it seriously for the whole process. They keep on experimenting for the ratio of how to make a delicious popcorn.
